ABOUT US

From Yavatmal to the world's shelves

Yavatmal Trading LLP is a merchant exporter of Indian FMCG. We supply importers, distributors and retailers abroad with 200+ products, made to our specifications, checked by our team and shipped under their label or ours.

We named the company after Yavatmal, our home town in the Vidarbha region of Maharashtra: farming country, known for cotton, soybean and pulses, and a long way from any port. India makes extraordinary food. We set out to make it simple to buy: one range, one standard and one accountable exporter, from first sample to arrival.
